

LED RAIL LIGHTING

LED READING LIGHT

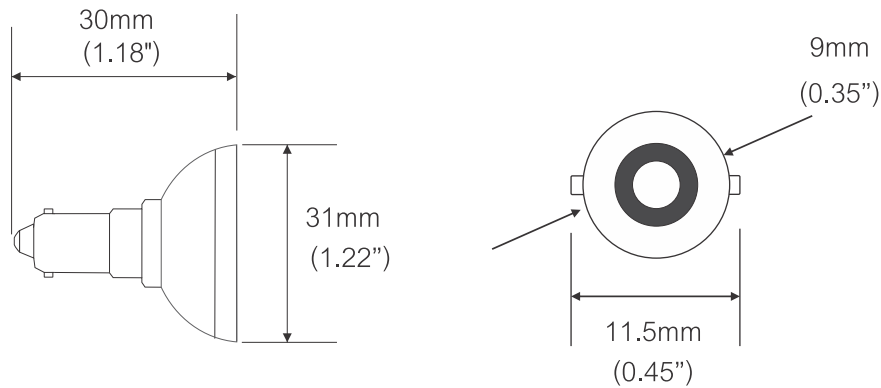

DESCRIPTION

The long-life of LED's make this product reliable for usage inside or outside of bus and rail vehicles. Highly focused light output ensures that the light is directed onto the user, with little stray light leaking light onto fellow passengers.

LED's will have no UV output so the lamps will not fade light fixtures. The miniature body size allows for the installation within any type of reading light fixture.

DIMENSIONS

ELECTRICAL STATS

Nominal Voltage	24V	28V
Operating Voltage	19 ~ 33V	19 ~ 33V
Operating Temperature	-22F ~ 122F (-30C ~ 50C)	
Wattage	1.4W	1.4W
LED Color (CCT)	3500K	3500K
Light Output	61LM	61LM
