

Refitting all 245 Coast Mountain Bus trolleys (New Flyer D40LFR Series), with the complete conversion completed in 2011.

When tested against the previous fluorescent lamps, the LED Smart bus lighting system matched or exceeded previous fluorescent lighting levels.

Assuming 16 hours per day operation, CMBC would save 1250 tonnes of carbon emissions per year, saving more than 2,800,000W per day.

2,800,000W Saved per day  
**58% ENERGY SAVINGS**

REDUCED CARBON EMISSIONS BY  
**1350 TONNES**

\*assume 16 hours operation per day
